

Prospective foster parents participate in pre service training sessions, that include a variety of topics including adolescent attachment and loss as well as how to use discipline and de-escalation skills.

Foster parents are also required to become CPR and First AID certified, a training we will provide.

*Experiences that last a lifetime.*

*You couldn't be there for their past*  
*You CAN be there for their future!*

## NAFI Connecticut, Inc. Professional Parent Program (PPP)

The NAFI Professional Parent Program (PPP) was first introduced into Connecticut in 1994 as a specialized foster care program. We now provide Therapeutic level foster care to youth referred by the Department of Children and Families. We work with youth between the ages of 8 and 18 years of age with challenging behavioral and/or mental health needs.

If you prefer to work with older children and teens, or may have experience in mental health issues... you are who we are looking for!

If you are ready to make that commitment to a child, please give us a call today to learn more about how you can make a difference!

*The program is designed to meet the individual needs of each youth and family based on their unique strengths and needs.*

Foster parents encompass the traditional foster role and take it a step further. As an integral part of our treatment team, families are given the skills necessary to provide a higher level of care for the youth placed in their homes.

We also provide families with:

- Comprehensive pre-service training
- Individualized support services for family and for youth.

- Wrap around services available.
- Ongoing continuing education opportunities
- Respite
- Maximum of 9 cases per worker
- 24 hour on call support
- Monthly trainings and support groups

Find out more about this exciting opportunity to make a difference.
